MEMORANDUM FOR: Associate Deputy Director for Intelligence

SUBJECT : Request to Speak to a University Class

1. I request approval to speak to the aerial photo interpretation (PI) class in the Department of Geography at the University of Oregon, Eugene, Oregon.

2. I will be on leave for approximately four weeks, starting April 19. While on leave I will be at the University of Oregon completing my thesis in Geography. (Copy of Form 879, Outside Activity Approval Request is attached.) The head of Geography, Dr. Everett Smith, who is my thesis advisor, and Dr. William Loy, the professor in charge of the PI class, have asked me to give three to four hours of lectures to the PI class.

3. I will discuss non-photographic remote sensors including multi-spectral scanners such as Landsat, side-looking airborne radar, thermal infrared imagery and the "multi" concept as applied to the acquisition and analysis of remote sensing data. All subject matter to be discussed is unclassified.

4. Attendance at my lectures will be limited to students registered for the PI course (not more than 30) and Department of Geography Staff. Subject matter outside the field of remote sensing will not be discussed, nor will I discuss my job, duties or other matters pertaining to the CIA.

5. Drs. Smith and Loy are aware that I will not be available to speak to other classes or groups. No public announcement of my lectures will be made. I have known Drs. Smith and Loy for more than ten years and have every confidence in their assistance to insure that my appearance does not exceed the scope of this request.
